

Better Bear Eagle Project ~ Davis Turk

On two different occasions when I was a little kid recovering from surgery I was given a Better Bear in the hospital. It made me feel so loved and comforted that 10 years later I still have my both my bears. Thank you for helping me pass to along that same feeling of comfort.

Due Date:

Return the completed bears to me before Sunday, August 21st. I would be happy to pick them up at your convenience, simply text the day and time

Life is busy so if for any reason you are unable to sew and/or stuff the bears, please return this kit so I can use it to complete the required number of bears for my Eagle Project.

Enclosed:

Included in this kit is a pre-cut template {two fabric pieces for each bear} and batting. To reduce the cost of this project, please return any left over batting along with your bears.

Thank you so much for volunteering to sew and stuff these Better Bears for the Texas Children's Hospital Emergency Room right here in Katy, on Spring Green Blvd.

Sincerely,

Davis Turk
